**Runners:** Please attach your timing chip to your shoe as per the video [here](#). **Runners do not need to return their timing chips.**

**Duathletes:** Please attach **your timing chip** firmly to your ankle with the strap provided **as soon as you open your envelope**. The chip will not start your timing until your race starts, but you cannot lose it if it is on your ankle. There are also timing chips on your bike number for the bike laps - please ensure that your number is attached to your seat post as per the photo.

The timing chips will ensure that your finish results (as well as splits and lap times) are collected by the system.

Remember, **no timing chip, no results.**

### ***Duathlon Race Routes***

Competitors will start in front of the Strawford Centre and complete one perimeter lap of the track, before running down the pit lane and into transition. The bike route is 5 laps in a clockwise direction around the track. Please note that you are responsible for counting your own laps - plan how you will do this to avoid mistakes on the day. The timing system will count laps and anyone not completing five will be disqualified.

On completing the final lap, competitors will turn sharp left back up the pit lane and into transition – please take extreme care at this point of the course and beware that there may be two-way traffic at this point.

The final run is another perimeter lap of the track, with the finish left under the Avon Bridge and right to the #razzmatazz finish line.

### ***Bike Route Rules***

There are certain rules you must follow when on the bike route.

- Even though the route is traffic free, you must be aware of others around you at all times.
- You must not draft during the event (see diagram and rules on drafting below).
- Helmets MUST be worn at all times you are in contact with your bike, including in transition.
- Your transition area must be kept tidy at all times and you must rack in the area allocated to you.

## 10k Route

The race starts and finishes in the paddock. From the start, runners head out of the paddock and up the pit lane to a turn point. After turning, runners complete 3 laps of the track. On the final lap competitors bear left back onto the pit lane and down to the #razzmatazz finish.

## A word from our referee, Mike Newman...

### Do you know the rules?

I have listed some general rules to help you when competing in a DB Max triathlon. Please remember them as you may be penalised with a 2-minute penalty, or even disqualified if you don't observe the rules.

This document aims to acquaint you with the most widely broken rules, so you never have to see or hear from a referee and to hopefully make your race a safe and enjoyable one.

If you have any questions please do not hesitate to speak to our referee at the race.

### General Rules and Race Conduct...

- It is your responsibility as a competitor to know **all** the rules. As in most walks of life, ignorance is no defence.
- It is your responsibility as a competitor to know and correctly complete the full course of the event.
- Foul and abusive language is not permitted and any failure to obey a marshal, the police or a referee will lead to disqualification.
- Marshals are often volunteers, who help the event team with the running of the DB Max events. Please respect them and where possible, thank them for their efforts.
- No outside assistance is allowed at any time during your race.
- Please do not use iPods, mobile phones or any other device that may impair your hearing or concentration anywhere on the course (including transition), as this will lead to disqualification.
- When racing, you need to be aware of other competitors and the general public, both on foot and in vehicles.
- You **must** wear a safety helmet on the bike leg that is of ANSI Z90.4, SNELL B90, EN 1078 or equivalent. A CE mark is **not** an approved standard. The strap to your helmet must also be snug in its fitting and not altered in any way (definitely not elastic). Helmets will be checked when racking your bike.
- Any fittings on your bike (computers, mountain bike handlebar extensions, etc.) must be positioned so as to prevent injury in the event of a crash. All handlebars and tribars must be plugged. **This will be checked when racking your bike and you will not be allowed to race if your bike does not meet the required standards.**
- Nudity is not allowed. Competitors must keep their chest covered at all times on the cycle and the run, no matter how hot it is.
- Bikes **must** be racked on the racking provided using either the seat post, handlebars or brake levers. Bikes must not be racked anywhere else and anybody not racking in this way will be disqualified.
- Remember to place your equipment down, as thrown equipment may interfere with other athletes and lead to a penalty.
- Competitors are not allowed to mark their position in transition with any special device, or flag etc., and must be careful not to interfere with any equipment of other athletes, either deliberately or accidentally.
- At DB Max races competitors must not remove their bike from the rack until their helmet is fastened. They must not unfasten their helmet until their bike is back in the rack.
- Race numbers must be worn and must be clearly visible at all times. They must not be altered or mutilated in any way as this will incur a penalty.
- You must not mount your bike until advised to do so at the bike mount/dismount line outside of transition. There must be no cycling in transition.

## DB MAX EVENTS – 9 BAR CHILLY 10k and DUATHLON

## Drafting....

- Duathlon is an individual sport, so in an age group triathlon, drafting (riding close to another cyclist) is forbidden. However, drafting is allowed in the run so if you must draft please do it then.
- The draft zone is an area extending from the front wheel of the leading bike to a point 7m behind it and 1.5m either side of the cyclists centre point. If you wish to overtake the cyclist in front, you have 15 seconds, which in basic terms means you have to be travelling 1mph faster than them to pass in the allotted time. If your front wheel is not passed their wheel in the allotted time you must drop back to 7m from their front wheel.
- If another rider overtakes you, it is your responsibility to drop back out of their draft zone.
- If a referee thinks you are drafting there is no appeal against the decision, so the rule of thumb is – be squeaky clean. Drafting is cheating. If caught drafting once you will be penalised with a 2-minute penalty. If you get caught a second time you will be disqualified.

***As long as you read this and follow the advice given, you should always be on the right side of the rules at all DB Max races.***

***Remember, our referee will always be willing to answer any questions you may have.***

***Enjoy your race....!***
